Our Vending Machines

Coffee and Hot Drinks

- ✓ With its 500 cup capacity our vending machine best suited to medium sized businesses, without compromising on the quality of the espresso coffee and offering a wide range of instant beverages, all with modern design and energy-efficient setting.
- ✓ Advanced model: free standing hot beverage vending machine offering the possibility to enjoy two different types of espresso coffee (dual container coffee canister). Available in traditional numerical version or advanced version with interactive touchscreen.

Cola and Snacks

- ✓ Automatic spiral vending machines for soft drinks (cans, bottles), snacks and fresh products, with a striking design, advanced operator technology, low energy consumption and a simple and accessible user interface suitable for any market requirement.
- ✓ We are utilizing the most advanced vending machine in the market. Suitable for any fresh or dry product, including fresh products which must be kept at +3°

Why VEND-N-GO?

- ✓ Simple to top up - Credit can be easily added via cash and web
- ✓ Simple to use - 'Tap and Go' without wasting precious break time queuing or fumbling for cash
- ✓ Simple to keep tabs in spending and rewards
- ✓ Get rewarded for purchasing your favorite drinks
- ✓ No need to worry about having the exact cash for your snack
- ✓ Better control and less errors
